

# Production Manager

**Location:** Shenzhen

**Sector:** Manufacturing

**Starting date:** ASAP

**Report to:** Asia General Manager

**Job Reference:** CDS-2024-049

## ABOUT THE COMPANY

Our client focuses on developing, manufacturing, and commercializing hydraulic cylinders and their accessories. By prioritizing customer feedback, the company has continuously aimed to ensure the quality and meticulousness of its offerings.

## MISSION

In close collaboration with the Asia General Manager, you manage the entity's production. In complete autonomy, you will organize and manage all the activities of the company workshop: Manpower, production planning, quality, improvement process, stock management, capex. Comfortable in an environment with a high level of technical and quality requirements and endowed with a real natural leadership, you will be a pillar in the organization and thus contribute to the success of this multinational.

## RESPONSIBILITIES

- Organize and control the workshop operations.
- Implementation of new product (process, manufacturing, control).
- Propose industrial and technical optimizations.
- Supervise workshop purchase.
- Manage the stock.
- Manage and support teams by creating and maintaining good team cohesion (good social climate).
- Master the ERP system and process.
- Supervise and ensure the quality process.
- Organize the maintenance.
- Help to set new production plant with the Asian G.M.
- To implement and enhance the company's culture and People guidelines within the local entity.

## REQUIREMENTS

- Graduated in Industrial Engineering, Mechanical Engineering, Fluids, etc.
- Significant experience essential in the management of production unit in an industrial SME environment such as general mechanics.

With over 10 years of experience, CCI FRANCE CHINE Recruitment Department supports companies in their recruitment needs and helps candidates find a professional opportunity across China.
